

Getting Started

STEP 1: Choose which account you would like to analyze

Make the following selections in the blue box on the left side

Accrued Charitable = Local Donations / Collections

CoBrand Gift Card Receivable = Store CoBrand Gift Cards

Direct Bills = House Account / Catering

STEP 2: Choose which store(s) should be included

Make your selection(s) in the red box on the left side

STEP 3: Choose the Period(s) and/or Year(s) that the data should represent

Make the following selections in the orange box on the left side:

- Period

- Year

- Hold down the **Control Key** to select multiple Periods or Years.

- Due to timing, any data beyond the currently reconciled period is subject to change

- Entries are not uploaded until the Thursday following current Period End at the soonest

STEP 4: View your Outstanding Balances

- Review balances for amounts we are due to payout or collect

- The **Current Balance for the Year** at the top shows the total outstanding balance for the entire year, regardless of what is filtered

- The **Total** Amount at the bottom of the table visual shows you the Total Balance for whatever period(s) you currently have filtered

STEP 5: Export Data for anything you would like to view independently within Excel

- Hover over the table you would like to export and select the three dots called "More Options"

- Select Export Data and wait for your file to download

Frequently Asked Questions

What is the purpose of this report?

This report is meant to provide visibility into your outstanding balances that you currently have no access to without reaching out to your Staff Accountant

When does this report update?

The Thursday following Period End would be the soonest the data would include sales detail. Data won't be complete until the Thursday of the week following Period End day.

What does "DSR" mean?

DSR stands for Daily Sales Report. The DSR line item represents the monthly total for whatever was logged as your sales for that period. For CoBrand, this represents the *payments* collected within the period. For Accrued Charitable, this represents our *collections* within the period. For Direct Bills, this represents *anything closed out* to Direct Bills within the period.

Why does a Positive (Debit) or Negative (Credit) balance mean?

Positive a.k.a. "Debit" balance:

- CoBrand = We are likely owed money and need to collect

- Direct Bills = We are likely owed money and need to collect

- Accrued Charitable = We have likely donated more than we have collected

(Negative) a.k.a. "Credit" balance

- CoBrand = We have likely collected more than we have activated (Possibly a Prepayment or a Guest Paid Discount)

- Direct Bills = We have likely collected more than we logged

- Accrued Charitable = We likely need to send our donations to organization; if putting toward CoBrand Gift Cards, notify your Staff Accountant

Why doesn't my report show the data I was expecting?

Please check the period(s) you have selected. Keep in mind, Current / Future period data won't be fully complete until the Thursday of the week following Period End. Blank data likely pertains to the prior year Carryforward balance.

General Power BI Tips & Tricks

Resetting Options on Individual Pulldown Menus

1. Hover cursor (but don't click) on a pulldown menu and a small eraser icon to "Clear selections" will appear in top right corner.
2. Click on eraser icon to revert back to the default selections.

Resetting Options on Entire Report

1. Click the curled arrow at the top of the page to reset filters and slicers to their default.
